WARMACHINE: PRIME MK II

P. 28. GAME TERMS.
Add the following sentence to the end of the third paragraph:
If you take control of an enemy trooper, it acts as an independent model while it is under your control.

P. 34. EYELESS SIGHT.
Replace the last sentence with the following:
This model ignores concealment (p. 57) and Stealth (p. 34).

P. 37. FACING.
Add the following sentence to the end of the second paragraph:
If a model is not completely within the back arc of a model, it is within its front arc.

P. 42. ACTIVATING UNITS.
Replace the fifth sentence of the first paragraph with the following:
A trooper that is out of formation at the start of its unit’s activation must use its normal movement to make a full advance toward or run directly toward its unit commander.

P. 43. LINE OF SIGHT.
Add the following lines to the first paragraph of this section:
Any time one model “targets” another model, it must have line of sight to that model. When a model “selects” another model, it need not have line of sight. A model’s controller can check its line of sight at any time.

P. 48. PLACED.
Replace the fifth sentence with the following:
A model cannot be placed in impassable terrain or with its base overlapping a linear obstacle, an obstruction, or another model’s base.

P. 48. ACTIONS.
In the last sentence of the first paragraph, change “cannot move” to “cannot advance.”

P. 48. COMBAT ACTIONS.
Replace the third sentence with the following:
A normal attack is an attack with a weapon that is not a special attack or a Chain Attack.

P. 51. POWER ATTACKS.
Replace the trample bullet point to the following:
Heavy and Colossal warjacks: trample.

PP. 51-52. HEADLOCK/WEAPON LOCK.
Replace the first sentence with the following:
A model making a headlock/weapon lock can lock a warjack or warbeast’s weapon or head to prevent its use if the target has an equal- or smaller-sized base.

Replace the fifth paragraph with the following:
A locked model can choose only to make a combat action as its action and cannot make a special attack. At the beginning of its combat action, a model suffering a headlock/weapon lock must attempt to break the lock. When a break attempt is made, both models involved in the lock roll a d6 and add their STR. If the locked model’s total exceeds that of the model holding the lock, the lock is broken. The locked model can make its initial melee attacks with any melee weapon not located in a locked system as normal. After resolving these attacks and attempts to break free, a warjack can spend focus points to make more attempts to break a lock or to make additional attacks with usable weapons, at 1 focus point per break attempt or additional attack. Once a lock is broken, the model can use the weapon that was locked to make additional attacks during its activation. At any time during its activation, a model can voluntarily release a lock it is maintaining.
ERRATA – JANUARY 2016

P. 54. BEING THROWN.
Replace the last sentence of the first paragraph with the following:
A large- or huge-based model throwing a small-based model adds 1” to this distance.

P. 55. DOUBLE-HAND THROW.
Add the following after the second sentence of the third paragraph:
In either case, the direction must be away from the attacker as with other throw power attacks.

Replace the fourth sentence of the third paragraph with the following:
A large- or huge-based model throwing a small-based model adds 1” to this distance.

Add the following to the end of the fourth paragraph:
The deviation distance cannot exceed half the distance between the thrown model and the intended point of impact.

PP. 55-56. TRAMPLE.
Replace the first sentence of the third paragraph with the following:
After the warjack has finished its trample movement, it makes a melee attack roll against each small-based model through which it moved during this movement.

Add the following to the Trample section:
If a trampling model first contacts the front arc of a model in Shield Wall, that model gains its Shield Wall ARM bonus when resolving damage for the trample.

P. 57. CONCEALMENT AND COVER.
Add the following after the second sentence of the first paragraph:
A terrain feature obscures the base of a target model if you can draw a line from any part of the attacker’s volume to any part of the target model’s volume and that line passes through that terrain feature. In order to benefit from concealment or cover, the model must be within 1” of the terrain feature along that straight line.

P. 63. KNOCKDOWN.
In the second sentence, change “cannot move” to “cannot advance.”

P. 64. STATIONARY MODELS.
Replace the first sentence of the last paragraph with the following:
A melee attack against a stationary model automatically hits.

P. 65. FORFEITING.
Replace the last sentence of the fourth paragraph with the following:
A model cannot forfeit its movement if it cannot advance or does not have a movement available.

P. 67. WARCASTER DESTRUCTION.
Replace the fourth sentence of the first paragraph with the following:
When a warjack goes inert, it loses any focus points it has. A warjack cannot gain focus points while inert. An inert warjack cannot activate and does not have a melee range. An inert warjack cannot engage or be engaged by other models. A model is never in melee with an inert warjack. An inert warjack has no facing, cannot advance, cannot make attacks, and does not gain an ARM bonus for shields or bucklers. Abilities that cannot be used while a model is stationary cannot be used while a warjack is inert. A melee attack targeting an inert warjack automatically hits. An inert warjack has a base DEF of 5.

P. 68. REACTIVATING WARJACKS.
Add the following text:
If the model reactivating a warjack has the Battlegroup Commander rule, the warjack becomes a part of its battlegroup.

P. 71. ATTACHMENTS.
Add the following to the Attachments text:
Models in a unit gain the benefits of granted abilities only while the model on whose card the rule appears is in formation.

P. 72. FIELD PROMOTION.
Add the following to the Field Promotion text:
If an effect allows your opponent to immediately take control of the Officer or Leader of a unit to make an attack or to make a full advance and an attack, that model remains the unit commander and is not replaced despite your opponent’s temporary control.

P. 72. SPILLS AND EFFECTS.
Add the following to the Spells and Effects text:
When a model’s special rule or spell allows its controller to choose or target a friendly unit, all models in that unit must be in formation.

P. 73. FOCUS: SHAKE EFFECT.
Add the following to the Focus: Shake Effect text:
During your Control Phase after allocating focus, if this model is affected by Shadow Bind it can spend 1 focus point to cause the Shadow Bind status to expire.

During your Control Phase after allocating focus, if this model is Blind it can spend 1 focus point to cause the Blind status to expire.

P. 75. FOCUS: SHAKE EFFECT.
Add the following to the Focus: Shake Effect text:
During your Control Phase after allocating focus, if this model is affected by Shadow Bind it can spend 1 focus point to cause the Shadow Bind status to expire.
ERRATA – JANUARY 2016

During your Control Phase after allocating focus, if this model is Blind it can spend 1 focus point to cause the Blind status to expire.

P. 77. CASTING A SPELL.
Replace the first three sentences with the following:
To cast a spell, a model must declare a target (if the spell has a target) and then pay the spell’s COST. If the spell is an upkeep spell, any other copies of that spell cast by the spellcaster immediately expire.

P. 77. MAGIC ATTACK ROLLS.
Replace the first sentence of the fourth paragraph with the following:
A magic attack roll does not suffer the target in melee attack roll penalty when the point of origin is in melee with the target.

P. 79. CHANNELING.
Replace the second sentence of the third paragraph with the following:
The spellcaster can spend focus to boost die rolls.

P. 81. MOUNT.
Replace the bold equation with:
Mount Melee Damage Roll = 2d6 + POW of Mount

PP. 81-82. CAVALRY CHARGE.
Replace the first sentence of the second paragraph with the following:
If a charging cavalry model contacts another model during its movement and has moved at least 3”, it can stop and make impact attacks with its Mount (see “Mount,” previous) against all models in the Mount’s melee range.

P. 82. LIGHT CAVALRY.
Replace the first sentence of the second paragraph with:
After an independent light cavalry model completes its action, the model can advance up to 5”. After all the models in a light cavalry unit have completed their actions, each can advance up to 5”.

P. 92. MOSH PIT.
The Mosh Pit is a 16”-diameter circle.

P. 244. APPENDIX A.
Add the following to the end of the second paragraph:
At any time two or more abilities are triggered at the same time, such as “attack hit” or “end activation,” the active player chooses the order in which abilities on his models resolve, then the inactive player chooses the order in which abilities on his models resolve.

PP. 247-249. APPENDIX B.
Replace the text of the Extended Control bond with:
This warjack gains Extended Control Range. (When checking to see if a model with Extended Control Range is in its controller’s control area, double the area.)

HORDES: PRIMAL MK II

P. 28. GAME TERMS.
Add the following sentence to the end of the third paragraph:
If you take control of an enemy trooper, it acts as an independent model while it is under your control.

P. 33. EYELESS SIGHT.
Replace the last sentence with the following:
This model ignores concealment (p. 57) and Stealth (p. 34).

P. 37. FACING.
Add the following sentence to the end of the second paragraph:
If a model is not completely within the back arc of a model, it is within its front arc.

P. 38. BUILDING YOUR ARMY.
Replace the first sentence of the second paragraph with the following:
To create an army, first choose a faction and decide on an encounter level, then spend the allotted army points to add models and units from your chosen faction and the minions who will work for that faction.

P. 42. ACTIVATING UNITS.
Replace the fifth sentence of the first paragraph with the following:
A trooper that is out of formation at the start of its unit’s activation must use its normal movement to make a full advance toward or run directly toward its unit commander.

P. 43. LINE OF SIGHT.
Add the following lines to the first paragraph of this section:
Any time one model “targets” another model, it must have line of sight to that model. When a model “selects” another model, it need not have line of sight. A model’s controller can check its line of sight at any time.

P. 47. CHARGE.
Replace the sixth and seventh sentences of the second paragraph with the following:
Once the charge target is in the charging model’s melee range, it must stay in the charging model’s melee range for the entire charge. The charging model stops if it contacts a model, an obstacle, or an obstruction or if it is pushed, slammed, or thrown.

P. 48. PLACED.
Replace the fifth sentence with the following:
A model cannot be placed in impassable terrain or with its base overlapping a linear obstacle, an obstruction, or another model’s base.

P. 48. ACTIONS.
In the last sentence of the first paragraph, change “cannot move” to “cannot advance.”
**ERRATA – JANUARY 2016**

**P. 48. COMBAT ACTIONS.**
Replace the third sentence with the following:
A normal attack is an attack with a weapon that is not a special attack or a Chain Attack.

**P. 51. POWER ATTACKS.**
Change the trample bullet point to the following:
Heavy and Gargantuan warbeasts: trample.

**PP. 51-52. HEADLOCK/WEAPON LOCK.**
Replace the first sentence with the following:
A model making a headlock/weapon lock can lock a warjack or warbeast’s weapon or head to prevent its use if the target has an equal- or smaller-sized base.

Replace the fifth paragraph with the following:
A locked model can choose only to make a combat action as its action and cannot make a special attack. At the beginning of its combat action, a model suffering a headlock/weapon lock must attempt to break the lock. When a break attempt is made, both models involved in the lock roll a d6 and add their STR. If the locked model’s total exceeds that of the model holding the lock, the lock is broken. The locked model can make its initial melee attacks with any melee weapon not located in a locked system as normal. After resolving these attacks and attempts to break free, a warbeast can be forced to make more attempts to break a lock or to make additional attacks with usable weapons; force the warbeast once per break attempt or additional attack. Once a lock is broken, the model can use the weapon that was locked to make additional attacks during its activation. At any time during its activation, a model can voluntarily release a lock it is maintaining.

**P. 53. BEING THROWN.**
Replace the last sentence of the first paragraph with the following:
A large- or huge-based model throwing a small-based model adds 1” to this distance.

**PP. 54-55. DOUBLE-HAND THROW.**
Add the following after the second sentence of the third paragraph:
In either case, the direction must be away from the attacker as with other throw power attacks.

Replace the fourth sentence of the third paragraph with the following:
A large- or huge-based model throwing a small-based model adds 1” to this distance.

Add the following to the end of the fourth paragraph:
The deviation distance cannot exceed half the distance between the thrown model and the intended point of impact.

**PP. 55-56. TRAMPLE.**
Replace the first sentence of the third paragraph with the following:
After the warbeast has finished its trample movement, it makes a melee attack roll against each small-based model through which it moved during this movement.

Add the following to the Trample section:
If a trampling model first contacts the front arc of a model in Shield Wall, that model gains its Shield Wall ARM bonus when resolving damage for the trample.

**P. 57. CONCEALMENT AND COVER.**
Add the following after the second sentence of the first paragraph:
A terrain feature obscures the base of a target model if you can draw a line from any part of the attacker’s volume to any part of the target model’s volume and that line passes through that terrain feature. In order to benefit from concealment or cover, the model must be within 1” of the terrain feature along that straight line.

**P. 63. KNOCKDOWN.**
In the second sentence, change “cannot move” to “cannot advance.”

**P. 65. STATIONARY MODELS.**
Replace the first sentence of the last paragraph with the following:
A melee attack against a stationary model automatically hits.

**P. 65. FORFEITING.**
Replace the last sentence of the fourth paragraph with the following:
A model cannot forfeit its movement if it cannot advance or does not have a movement available.

**PP. 68-69. CONTINUOUS EFFECTS.**
Replace the first icon in the Corrosion entry ( GetName ) with the Continuous Effect: Corrosion ( icon.
Replace the first icon in the Fire entry ( GetName ) with the Continuous Effect: Fire ( icon. Replace the last icon in the Fire entry ( GetName ) with the Immunity: Fire ( icon.

**P. 71. ATTACHMENTS.**
Replace the first sentence with the following:
Attachments are made up of one or more models that can be added to another unit.

**P. 71. ATTACHMENTS.**
Add the following to the Attachments text:
Models in a unit gain the benefits of granted abilities only while the model on whose card the rule appears is in formation.

**P. 72. FIELD PROMOTION.**
Add the following to the Field Promotion text:
If an effect allows your opponent to immediately take control of
ERRATA – JANUARY 2016

the Officer or Leader of a unit to make an attack or to make a full advance and an attack, that model remains the unit commander and is not replaced despite your opponent’s temporary control.

P. 72. SPELLS AND EFFECTS.
Add the following to the Spells and Effects text:
When a model’s special rule or spell allows its controller to choose or target a friendly unit, all models in that unit must be in formation.

P. 74. SHAKE EFFECTS.
Add the following to the Shake Effects text:
During your Control Phase after resolving threshold checks and frenzies, a warbeast that is affected by Shadow Bind can be forced to cause the Shadow Bind status to expire.

During your Control Phase after resolving threshold checks and frenzies, a warbeast that is Blind can be forced to cause the Blind status to expire.

P. 74. THRESHOLD AND FRENZY.
Replace the last paragraph with the following:
A player cannot intentionally choose a path for a frenzying model’s charge that would cause the charge to fail.

Because a frenzied warbeast activates in the Control Phase, it cannot activate during the Activation Phase that turn. During the frenzy activation, a frenzied warbeast can only take its movement and action as described above. It cannot be forced, use its animus, use abilities, etc. If a frenzied warbeast cannot immediately activate, it loses its activation and is no longer frenzied, and you can remove any number of fury points from it.

P. 77. FURY: SHAKE EFFECT.
Add the following to the Fury: Shake Effect text:
During your Control Phase after resolving threshold checks and frenzies, if this model is affected by Shadow Bind it can spend 1 fury point to cause the Shadow Bind status to expire.

During your Control Phase after resolving threshold checks and frenzies, if this model is Blind it can spend 1 fury point to cause the Blind status to expire.

P. 80. CASTING A SPELL.
Replace the first two sentences with the following:
To cast a spell, a model must declare a target (if the spell has a target) and then pay the spell’s COST. If the spell is an upkeep spell, any other copies of that spell cast by the spellcaster immediately expire.

P. 80. MAGIC ATTACK ROLLS.
Replace the first sentence of the fourth paragraph with the following:
A magic attack roll does not suffer the target in melee attack roll penalty when the point of origin is in melee with the target.

P. 82. CHANNELING.
Replace the second sentence of the third paragraph with the following:
The spellcaster can spend fury to boost die rolls.

P. 83. MOUNT.
Replace the bold equation with:
Mount Melee Damage Roll = 2d6 + POW of Mount

PP. 83-84. CAVALRY CHARGE.
Replace the first sentence of the second paragraph with the following:
If a charging cavalry model contacts another model during its movement and has moved at least 3”, it can stop and make impact attacks with its Mount (see “Mount,” previous) against all models in the Mount’s melee range.

P. 84. LIGHT CAVALRY.
Replace the first sentence of the second paragraph with:
After an independent light cavalry model completes its action, the model can advance up to 5”. After all the models in a light cavalry unit have completed their actions, each can advance up to 5”.

P. 94. MOSH PIT.
The Mosh Pit is a 16”-diameter circle.

P. 236. APPENDIX A.
Add the following to the end of the second paragraph:
At any time two or more abilities are triggered at the same time, such as “attack hit” or “end activation,” the active player chooses the order in which abilities on his models resolve, then the inactive player chooses the order in which abilities on his models resolve.

PP. 239-241. APPENDIX B.
Replace the text of the Extended Control bond with:
This warbeast gains Extended Control Range. (When checking to see if a model with Extended Control Range is in its controller’s control area, double the area.)

Replace the text of the Dominator bond with:
When this warbeast makes an attack against an enemy warbeast or warjack in the control area of this warbeast’s controlling warlock, this warbeast gains +2 to the attack and damage rolls against the enemy model.
